Company Snapshot

Specializing in precision Die-Cutting Solutions, Breiner Innovative is an Indiana family-owned business that has been manufacturing quality non-metallic seals, gaskets, and custom parts for over 70 years. Serving a wide variety of industries we supply parts into aerospace, automotive, aviation, defense, filtration, medical, pipe & pump, OEM, and maintenance & repair operations.

Our core value is following the Golden Rule...do unto others as you would have them do unto you. That focus manifests itself in:

- Quick turnarounds and just in time focus. We don't like to wait, so we do everything we can to keep you from waiting.
- Rapid high-speed prototyping. Being able to test a variety of materials and build the one part of the fit test makes all the difference in a new project.
- No minimum orders. "No order is too small". We have suppliers telling us about their minimum order fees, and we don't like it, so we don't impose that on our valued partners. If you need one part, we'll make one part.

We are a non-metallic products provider deliberately transforming people into raving fans

Capability Statement

Material Types

- EPDM
- Nitrile/Buna Rubber
- Neoprene Rubber
- Silicone Rubber
- Viton/Fluoroelastomer
- Red Rubber / SBR
- Gum Rubber / Natural Rubber
- Butyl
- Cloth Inserted Diaphragm
- Vegetable Fibre
- Cork
- Nomex
- Kapton
- Felt (needled & compressed)
- Compressed Non-Asbestos
- Polyurethane
- Sponge Rubber Open & Closed Cell
- Beater/Cellulose
- Teflon
- Commercial Fibre
- Vulcanized Fibre
- Paper and Paperboard
- Plastics (Mylar / PVC / Polycarbonates / Lexan / UHMW / HPDE / LDPE / PETG)

Equipment

- Atom Flash Cutter (CNC)
- 10 Ton Swing Beam Press
- 50 Ton Traveling Head Press
- 60 Ton Atom Full Beam Press
- 10 Ton Automatic Preco Punch Press
- 60" Metal Shear
- Punch Presses 10-45 Ton
- 60" Cutting Width Shearer
- Judelshon Coil Slitter
- USM Splitting Machine
- Accu Gauge Precision Measuring

We supply high quality products that meet and exceed our partners requirements through effective communication, reliability, and personalized service.

At Breiner we appreciate your business and look forward to providing solutions and serving all your custom parts needs.
